

ROYAL DINXPERLO

Wide range of wire mesh

100 years of wire mesh expertise

Thanks to the knowledge and expertise of our highly skilled and highly motivated professionals, our 13000m² production location and our vast experience in global projects, we can create pretty much any wire mesh product you need.

Our regular mesh products can be delivered from stock and our team is always happy to help with any innovative custom made solutions you may require.

ROYAL DINXPERLO

Wide range of wire mesh solutions

Royal Dinxperlo has been an international manufacturer of various types and sizes of wire mesh for 100 years. We manufacture semi-finished products like woven and welded wire mesh and various types of filters and sieves. We supply these products both from stock and on customer demand. We also perform finishing processes like, but not limited to: powder coating, rolling, annealing, ultrasonic or alkaline cleaning in our own factory. With our extensive range of equipment, knowledge and experience, the possibilities are endless.

Royal dinxperlo is...

Craftsmanship

The knowledge and dedication of all our professionals is woven into our mesh

Loyalty

Since 1917, Royal Dinxperlo has provided a solid foundation which has connected us to our customers for years.

Unique

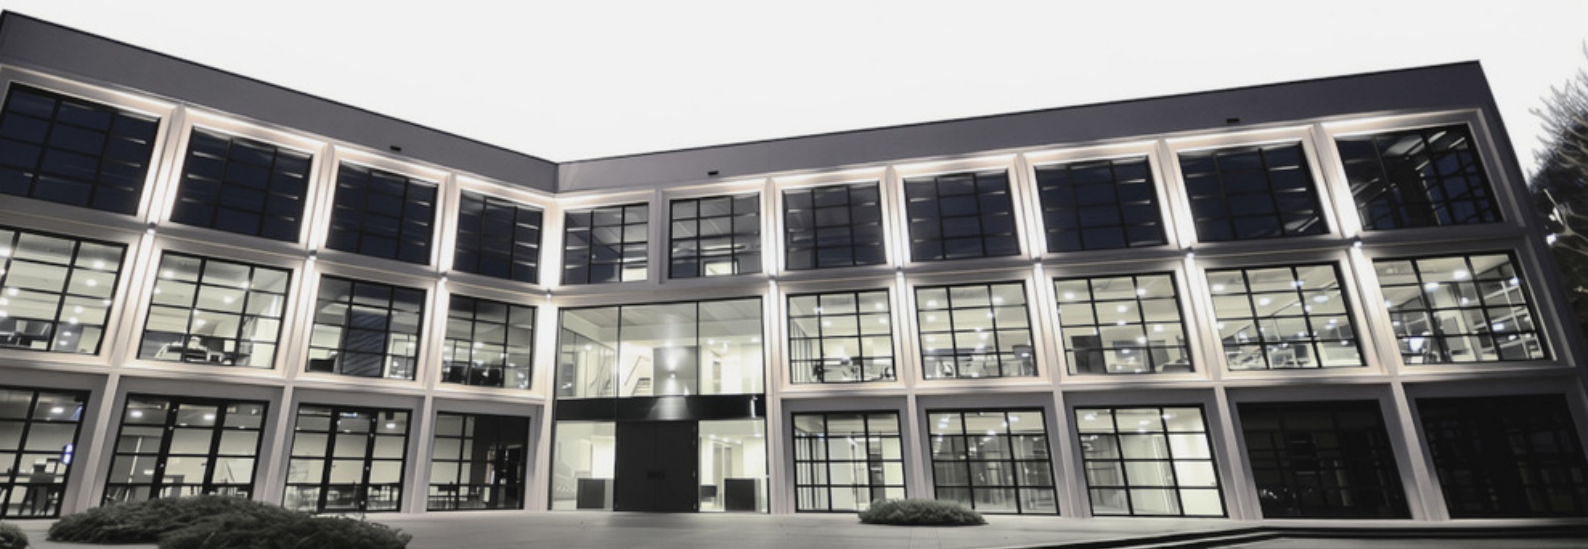

We work in a very unique way. We sink our teeth in and keep going. We don't stop until we are satisfied. Which results in solutions with which we set the tone worldwide.

We're already well connected in the following sectors:

- Horticulture
- Design
- Construction
- Burners
- Aviaries
- Emi/RFI shielding
- Filtration
- Machine construction
- Oil & gas
- Screen printing
- Shipbuilding
- Packaging
- Automotive
- Food industry
- Chemicals

Endless connection

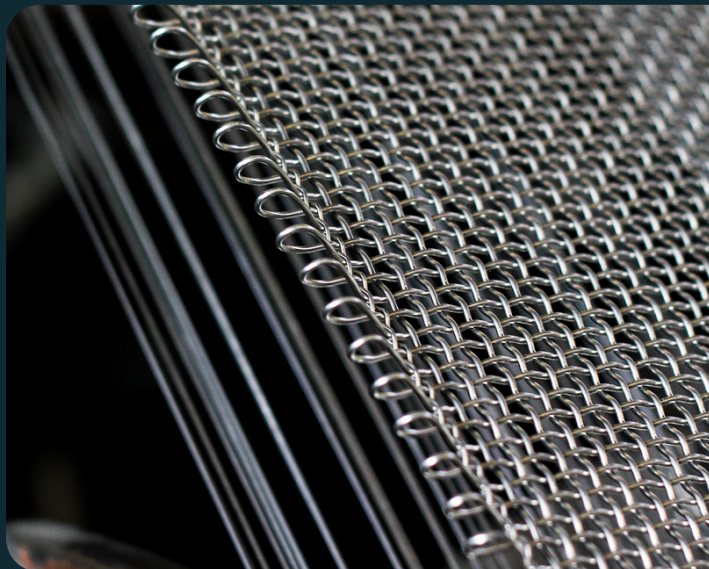

We love to connect. Whether it concerns connecting with people, connecting with clients or simply connecting wire! We seek long-lasting connections that our clients can rely on!

Woven wire mesh

With our team of experienced professionals and our modern machines and tools we produce the most diverse metal weaves. All to be produced through various weaving techniques (square weave, twill weave, broken twilled weave and Dutch weave). This means the possibilities are endless.

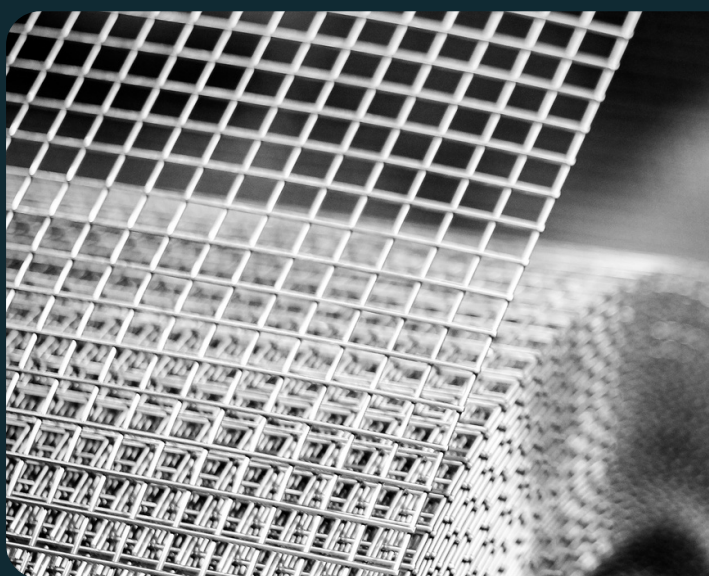

Possibilities	Woven wire mesh
Mesh opening	5 micron - 50 mm
Wire diameter	20 micron - 4 mm

Welded wire mesh

Royal Dinxperlo produces a wide range of welded wire mesh. Very fine to relatively heavy specifications. Thanks to our versatile machine park and our large stock of metal wires, we can produce infinite specifications enabling us to meet virtually any demand.

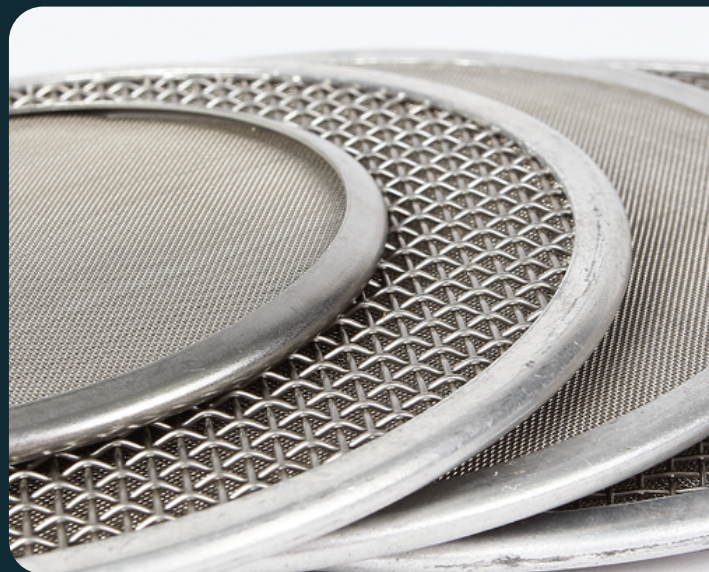

Possibilities	Welded wire mesh
Mesh opening	5.0 mm - 250 mm
Wire diameter	0.5 mm - 5 mm

Filters and sieves

With our team of experienced professionals we produce a wide range of filters and sieves from woven and welded wire mesh. Before we start with the design and engineering we discuss all considerations and details. All filters and sieves are custom made.

Possibilities	Woven & welded wire mesh
Mesh opening	5 micron - 50 mm
Wire diameter	20 micron - 4 mm

Available materials

AISI304(L), AISI316(L), AISI430, AISI904L, INCONEL®, INCOLOY®, MONEL, HASTELLOY®, brass, copper, iron, aluminum, spring wire, galvanized, galfan and many more.
