

ROYAL DINXPERLO

Fencing mesh

100 years of wire mesh expertise

Thanks to the knowledge and expertise of our highly skilled and highly motivated professionals, our 13000m² production location and our vast experience in global projects, we can create pretty much any wire mesh product you need.

Our regular mesh products can be delivered from stock and our team is always happy to help with any innovative custom made solutions you may require.

ROYAL DINXPERLO

WIRE WEAVING

Fencing mesh for the sport of fencing

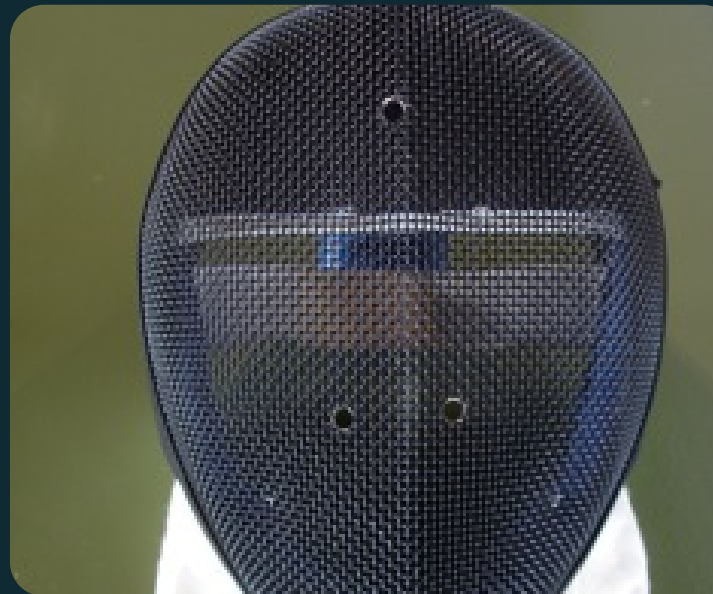

In the sport of fencing, safety is always paramount. During training sessions and competitions, a fencing mask must provide the fencer with optimum protection against the impact of the weapon, whilst at the same time ensuring good visibility and a high level of comfort. The metal mesh is one of the most important components of the fencing mask.

Woven fencing mask mesh

Royal Dinxperlo manufactures high-quality woven fencing mask mesh that has been specially developed for use in the sport of fencing. Thanks to our precise weaving technique, consistent quality and high-quality materials, we supply metal mesh that meets the high standards required of modern fencing masks.

Product	Woven mesh.
Application	Fencing.
